Medicinally Important Trees

By Aisha Khan

Springer. Hardcover. Condition: New. 402 pages. Dimensions: 9.3in. x 6.1in. x 0.0in. This book provides researchers and advanced students (who are associated with plant and pharmaceutical sciences) with comprehensive information on medicinal trees, their identification, morphological characteristics, traditional and economical uses, along with the latest research based on the plants medicinal compounds. The text also provides an updated knowledge of important phytochemicals of the trees, techniques being used, and isolation of phytochemicals based on medicinal importance. It covers ecological distribution of over 150 trees, which are characterized mainly on the basis of their unique properties and phytochemicals of medicinal importance (i.e., anti-allergic, anti-diabetic, anti-carcinogenic, anti-microbial, and their possible anti-HIV compounds). Flora is characterized on the basis of its unique and important medicinal properties because one plant may possess anti-diabetic, anti-microbial, and anti-carcinogenic activities at the same time. It also includes the latest phytochemistry techniques being explored through advancements in biochemical techniques like chromatographic and spectrometric techniques. This reference work will also be useful for identification of trees along with morphological explanation of plants, and current, up-to-date botanical knowledge. A large number of illustrations, taken at different stages of plant development from flower to fruit formation, will benefit readers. Due...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Ally Reichel

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
